Workbook. There will be graded assignments on the online version of the workbook (webSAM), all due by the end of each chapter.

Use the online Workbook correctly and constructively! Write the answers to all exercises, revise your answers by referring, when applicable, to the grammar explanations in the textbook. Should you continue to write the incorrect answer, print out the page and bring your question to class, send me an email or send me the exercise itself via the online workbook on Imaginez.
